DRINKS MENU **2026**

Dear guests from Corfu, Europe and across the world

Welcome to **BLUE WAVE RESTAURANT – LOUNGE – Bar (on the Rock)**, located on one of the smallest but most beautiful beaches in Corfu, with a stunning view across the turquoise Ionian Sea all the way to the city of Corfu.

On this menu, you will find:

Water, soft drinks, beer, coffee...
as well as sparkling wine, champagne, liquors, spirits, Greek spirits and Greek wine.

You will notice that we specialize exclusively in Greek wine. This is because:

Greece produces excellent wine!

We have made a conscious decision to include **only the best Greek wines** in our selection. But this is also so that you, as a guest on the island of Corfu, can get to know Greek wines better. To help you get started, please find below some information about the grapes in our wines.

Good to know:

In Greece, wines are cultivated in **nine wine-growing regions** – from Macedonia in the north to Crete in the south. These regions are very different geographically and climatically, resulting in a wide range of different grape varieties and wines.

. **RETSINA** is the most traditional and **best-known Greek wine**, but it is not to everyone's taste. We recommend ordering retsina only if you're already familiar with it.

. **AGIORGITIKO** is considered the **noblest red grape variety** in the country and it is also one of the oldest wine varieties in the world.

. **ASSYRTIKO** is thought to be the **best white grape variety** in Greece and originally comes from Santorini.

and

. **DIONYSOS** is – according to Greek mythology – the “god of wine”.

We hope you have a wonderful time with us!

Your BLUE WAVE LOUNGE team and

Gerasimos – co-owner & **Simona** – co-owner & manager

All prices are in euros. We accept cash and credit card payments.

Grape: Syrah / Merlot / Xinomavro /

53.00

Evangelos – from Thessaloniki

Grape: Syrah / Viognier / * an iconic Greek red wine!

66.00

Grape varieties that are cultivated in Greece

White wine grapes and wines

Grape: Malagousia

Found in the white wine "Armyra" or "Malagousia"

Malagousia is a white grape variety that grows in the western Greek port city of Nafpaktos or in West Macedonia. It is almost extinct but is nevertheless playing an increasingly important role in the production of high-quality Greek white wines. Alongside Assyrtiko, Malagousia is probably the most interesting Greek white wine variety.

Grape: Robola

Found in the white wine "Theotoky"

The story goes that Robola was brought to the Ionian Islands by Venetians centuries ago. Yet Robola is at least as Greek as Aphrodite – and no less seductive!

Grape: Assyrtiko

Found in the white wine "Santorini Argiros"

Assyrtiko is an outstanding Greek white grape variety and perhaps even one of the noblest in the Mediterranean region!

Grape: Moschofilero

Found in the rosé wine "Tomi / TOMH" or "Akres" (our house wine, available by the bottle).

The white grape variety Moschofilero grows mainly in the Peloponnese and in the Mantinia wine region. The grapes are slightly reddish in color but have white flesh and are also popular as table grapes.

Grape: Roditis

Found in the white wine "Akres" (our house wine, available by the bottle).

Roditis is a very widespread, long-established grape variety in Greece. Its origins are thought to be on the island of Rhodes, as the name suggests.

Grape: Mavrofilero

Found in the rosé wine "Peplo"

This grape variety was first mentioned in 1601. Today's wines made from this grape can be very unusual but are light and pleasant.

Grape: Viognier

Found in the red wine "Evangelos" *

This "white" grape is extremely rare and therefore very noble. It needs a lot of care and only thrives in northwestern Greece. Along with red wine grapes, it produces wonderful red wines.

** Evangelos is produced by Domaine Gerovassilou, which receives many international awards every year!*

Red wine grapes and wines

Grape: Xinomavro *

Found in the red wine "Alfa"

Xinomavro is probably the most fascinating and highest quality Greek red grape variety. It has an excellent reputation in the wine world.

** Did you know that some Xinomavro wines are as good as the best Barolo wines from Italy!*

Grape: Agiorgitiko

Found in the red wine "Thema" or "Nemea"

Agiorgitiko is one of the oldest grape varieties in the world and is believed to have originated in Corinth. Also known as St. George's grape or Mavro Nemea, it has been cultivated in Greece for decades to produce high-quality red wines.
